

SOLUTIONS FOR SPINNAKER

MODERN APPLICATION DELIVERY FOR THE ENTERPRISE

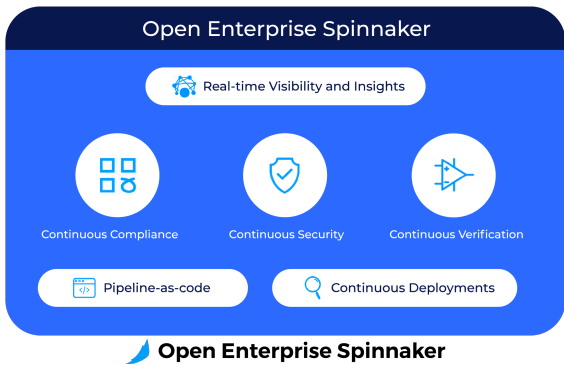

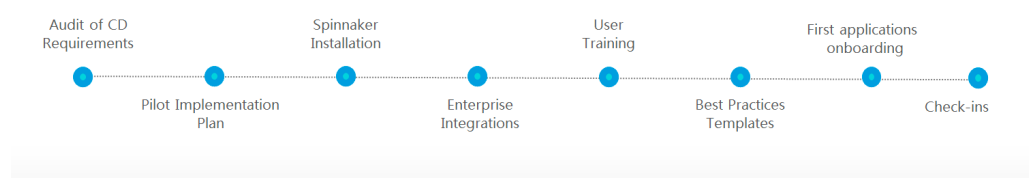

OpsMx provides enterprises with the 3 keys to **fast Spinnaker onboarding, accelerated adoption, and rapid deployment to production** with enterprise-ready capabilities and no vendor lock-in.

1

ENTERPRISE SPINNAKER ONBOARDING

Eliminate installation errors | Shorten time to production | Compliance with best practices
Train Dev and Ops teams for success | Minimize cost

OPEN ENTERPRISE SPINNAKER (OES)

2

OES is an enterprise-ready continuous delivery and verification platform that empowers enterprises to transform their application delivery by releasing faster with greater confidence and less risk. With OES you're:

- Enterprise-ready from day one
- Always able to access Spinnaker community upgrades
- Never locked-in to a single vendor's distribution

3

24 X 7 EXPERT SUPPORT AND MAINTENANCE

An OES subscription provides enterprises with the 24X7 expert support they need to be successfully at every stage of their Spinnaker adoption journey.

Enterprise
<ul style="list-style-type: none"> • 8 x 5 Support • Open Enterprise Spinnaker: ** • App Onboarding console • Enterprise Security • Analytics Dashboard • Release Manager • Terraform integration • Upgrade guidance • Open Source bug fixes on best effort basis • Quarterly best practices session <p>** Available as On-Prem & SaaS</p>

Enterprise Plus
<ul style="list-style-type: none"> • Everything in Standard • SLA-based 24x7 support • Critical P0 support • Open Enterprise Spinnaker Extensions: <ul style="list-style-type: none"> • AutoPilot ML-based Verification • Compliance • Audit • Monthly best practices session • Dedicated success manager

Optional Professional Services: Consulting | App On-boarding | Training

OpsMx Open Enterprise Spinnaker

OpsMx provides the software, services, and support needed to ensure success at every stage of your enterprise Spinnaker journey.

Enterprise On-Boarding

From planning to apps in production

- ✓ Shorten time to production
- ✓ Eliminate installation and process errors
- ✓ Enforce compliance and best practices

Open Enterprise Spinnaker

Enterprise-ready with no modification to your open-source installation

- ✓ Enforce policy compliance at every stage
- ✓ Achieve safety with automated verification
- ✓ No vendor lock-in

Enterprise Support

24 X 7 Mission Critical Expert Support

- ✓ Minimize production failures
- ✓ Spinnaker release upgrade guidance
- ✓ Quarterly best practices audit

KEY BENEFITS:

Faster Adoption

An enterprise-ready distribution and expert onboarding services speeds adoption.

Reduced Cost and Increased ROI

OES with included onboarding and support services lowers TCO compared to a do-it yourself (DIY) approach.

Reduced Errors and Outages

Expert configuration, support, and application of pre-built best practices and deployment strategies reduce outages from failed deployments.

Better Security and Compliance

OES provides a hardened Spinnaker with pre-configured security best practices and fast fixes of security vulnerabilities, resulting in reduced misconfiguration errors and fast issue resolution.

Reduced Business Risk

Access to OpsMx experts, pre-configured best practices, and 24/7 support help mitigate many operational and business risks commonly associated with open source.

No Vendor Lock-In

OES is pluggable on top of Open Source Spinnaker, so you're never locked into a vendor's proprietary distribution.

PARTNERSHIPS AND ALLIANCES

ABOUT US

OpsMx is a leading provider of Open Enterprise Spinnaker. OpsMx offers 24x7 support for Open source Spinnaker and Enterprise extensions for security, application on-boarding, and continuous verification. OpsMx has offices in the United States, Europe, and India.
