

OPSMX ENTERPRISE for SPINNAKER

TRUE OPEN SOURCE ENTERPRISE-READY SPINNAKER

OpsMx Enterprise for Spinnaker (OES) is an enterprise-ready continuous delivery and verification platform that empowers enterprises to transform their application delivery by releasing faster with greater confidence and less risk.

ONE SUBSCRIPTION FOR YOUR ENTIRE SPINNAKER JOURNEY

An OES subscription provides enterprises with the software, services, and support they need to ensure success at every stage of their Spinnaker adoption journey.

Spinnaker Lifecycle Management

- Enable reliable and efficient operations

Expert Onboarding Services

- Ensure smooth and painless enterprise-scale adoption

24/7/365 Mission Critical Support

- Mitigate risks of community-based support

KEY BENEFITS:

Faster Adoption

An enterprise-ready distribution and expert onboarding services speeds adoption

Reduced Cost and Increased ROI

OES with included onboarding and support services lowers TCO compared to a do-it yourself (DIY) approach.

Reduced Errors and Outages

Expert configuration, support, and application of pre-built best practices and deployment strategies reduce outages from failed deployments.

Better Security and Compliance

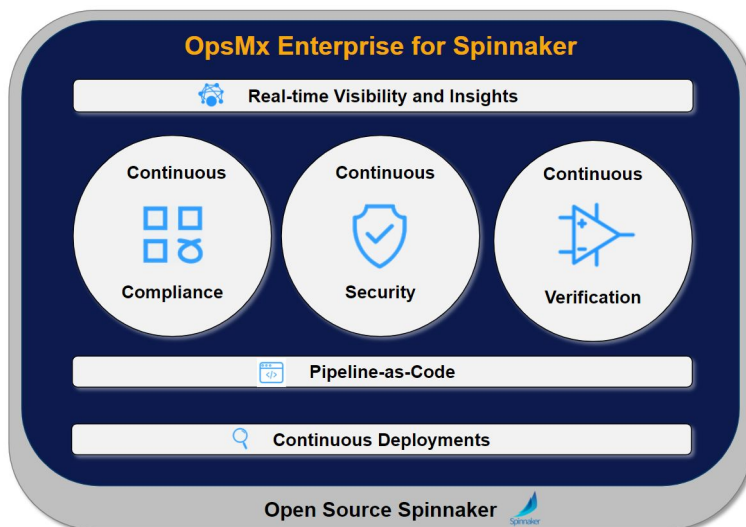

OES provides a hardened Spinnaker with pre-configured security best practices and fast fixes of security vulnerabilities, resulting in reduced misconfiguration errors and fast issue resolution.

Reduced Business Risk

Access to OpsMx experts, pre-configured best practices, and 24/7 support help mitigate many operational and business risks commonly associated with open source

No Vendor Lock-In

OES is pluggable on top of Open Source Spinnaker, so you're never locked into a vendor's proprietary distribution.

OES was architected to be pluggable on top of Open Source Spinnaker, preventing vendor lock-in

TRUE OPEN SOURCE

With OES you're enterprise-ready from day one, always have immediate access to Spinnaker community upgrades and fixes, and are never locked into a vendor's proprietary distribution. Designed to be pluggable on top of Open Source Spinnaker, OES is the true open source alternative for modernizing your application delivery.

MODERN APPLICATION DELIVERY FOR THE ENTERPRISE

OpsMx Enterprise for Spinnaker is built on six fundamental pillars of modern application delivery, empowering enterprises to transform their application delivery by releasing faster with greater confidence and reduced risk.

CONTINUOUS DEPLOYMENT

- **Achieve repeatable multi-cloud deployments** without scripting
- **Deploy all app types**, including microservices and traditional monolith applications
- **Reduce failure rates** with built-in safe deployment strategies across public, private, and container environments

PIPELINE-AS-CODE

- **Automate and simplify** the creation of application delivery workflows
- **Templatize pipelines** and enable fine-grain policy checks at every stage
- **Get real-time visibility** and diagnostics during pipeline execution

CONTINUOUS COMPLIANCE

- **Ensure compliance** with organizational policies while shipping your releases faster to production
- **Quickly identify** the who, what, when, where, and how for your pipelines and applications with audit reports and traces

CONTINUOUS SECURITY

- **Mitigate risks** by integrating security best practices into all deployment stages
- **Secure release pipelines**, manage user authentication and role-based access control
- **Ensure built-in protection** across multiple teams, point tools, and infrastructure with hardened Spinnaker

CONTINUOUS VERIFICATION

- **Drastically reduce errors** during build, deploy, test, and release phases
- **Validate the health** of new software releases with data from metrics and logs using AI/ML algorithms

REAL-TIME INSIGHTS & VISIBILITY

- **Increase confidence** in releases by identifying defects in pipeline and application deployment with deep insights.
- **Foster high trust and a collaborative culture** with real-time visibility of deployments and their performance at different stages
