

MANAGED SPINNAKER

WE TAKE CARE OF YOUR CONTINUOUS DELIVERY,
YOU CONCENTRATE ON YOUR CORE BUSINESS

OpsMx Managed Spinnaker is a highly available, hassle-free Spinnaker experience with built-in enterprise grade features to deliver your innovations to customers faster, more securely and, more frequently. The combination of Open Enterprise Spinnaker (OES) and managed service economics eliminates IT operational bottlenecks, accelerating your CD initiatives.

ONE SUBSCRIPTION FOR YOUR ENTIRE JOURNEY

A Managed Spinnaker subscription provides everything needed to ensure success at every stage of the Spinnaker adoption journey, with the added benefit of no infrastructure hassles and lower Total Cost of Ownership.

Expert Onboarding Services to ensure smooth and painless enterprise-scale adoption

OES - Spinnaker Lifecycle Management to enable reliable and efficient operations

24/7/365 Mission Critical Support to mitigate risks of community-based open source support

DEPLOY ANY APP TO ANY CLOUD

We help in distributed installation and implementation of Spinnaker to the cloud(s) of your choice: AWS, Azure, GCP, OpenShift

TRUE OPEN SOURCE

With OES you're enterprise-ready from day one, always have immediate access to Spinnaker community upgrades and fixes, and are never locked into a vendor's proprietary distribution. Designed to be pluggable on top of Open Source Spinnaker, OES is the true open source alternative for modernizing your application delivery.

KEY BENEFITS:

- ✓ **Zero Infrastructure Hassle**
- ✓ **Lower Total Cost of Ownership**
- ✓ **Frictionless Innovation**

Reliability

- Enterprise grade SLA
- 99.95% uptime

Scalability

- Support for large scale application adoption
- Deployment of all app types from monoliths to microservices
- Scales to thousands of pipelines

Productivity

- Zero-touch upgrading and patching of Spinnaker software

Security

- Enterprise Level Security
- Policy Enforcement
- Compliance and Audit

Performance and Resiliency

- 24/7/365 monitoring
- Proactive troubleshooting of issues

Resource Efficiency

- Consultation with CD experts
- End user training
- Zero Infrastructure Hassle

MANAGED OPEN ENTERPRISE SPINNAKER

MODERN APPLICATION DELIVERY FOR THE ENTERPRISE

OpsMx Open Enterprise Spinnaker is built on six fundamental pillars of modern application delivery, empowering enterprises to transform their application delivery by releasing faster with greater confidence and reduced risk.

CONTINUOUS DEPLOYMENT

- **Achieve repeatable multi-cloud deployments** without scripting
- **Deploy all app types**, including microservices and traditional monolith applications
- **Reduce failure rates** with built-in safe deployment strategies across public, private, and container environments

PIPELINE-AS-CODE

- **Automate and simplify** the creation of application delivery workflows
- **Templatize pipelines** and enable fine-grain policy checks at every stage
- **Get real-time visibility** and diagnostics during pipeline execution

CONTINUOUS COMPLIANCE

- **Ensure compliance** with organizational policies while shipping your releases faster to production
- **Quickly identify** the who, what, when, where, and how for your pipelines and applications with audit reports and traces

CONTINUOUS SECURITY

- **Mitigate risks** by integrating security best practices into all deployment stages
- **Secure release pipelines**, manage user authentication and role-based access control
- **Ensure built-in protection** across multiple teams, point tools, and infrastructure with hardened Spinnaker

CONTINUOUS VERIFICATION

- **Drastically reduce errors** during build, deploy, test, and release phases
- **Validate the health** of new software releases with data from metrics and logs using AI/ML algorithms

REAL-TIME INSIGHTS & VISIBILITY

- **Increase confidence** in releases by identifying defects in pipeline and application deployment with deep insights.
- **Foster high trust and a collaborative culture** with real-time visibility of deployments and their performance at different stages
